ELSEVIER

Journal of Economics and Business 58 (2006) IV

Journal of Economics & Business

Volume 58 Title Index

A framework for empirical applications of production theory without expected utility, 290–302

Are the dynamic linkages between the macroeconomy and asset prices time-varying?, 480–518

Contracting on real option payoffs, 20–35

Country-fund discounts and risk: Evidence from stock market volatility and macroeconomic volatility, 303–322

Effects of stock mispricing and regulatory capital constraints on bank lending, 137–152

Forecasting output using oil prices: A cascaded artificial neural network approach, 168–180

Forecasting with Monetary Aggregates: Recent Evidence for the USA, 428–446

Internet versus traditional retailing: An address model approach, 240–255

Investment timing under uncertainty in oligopoly: Symmetry or leadership?, 1–19

Macroeconomics in the Twenty-First Century, 363–365

Managed floating as a strategy to achieve selected monetary policy objectives, 447–464

Market efficiency and cointegration of spot exchange rates during periods of economic turmoil: Another look at European and Asian currency crises, 323–342

Measuring provisions for collateralised retail lending, 343–361

Monetary policy, stock returns and inflation, 36–54

Multimarket bank pricing: An empirical investigation of deposit interest rates, 256–272

Multi-output firm under price uncertainty, 181–201

Mutual funds and the evolving long-run effects of stock wealth on U.S. consumption, 202–221

Opportunistic monetary policy: An alternative rationalization, 366–372

Overnight interbank loan markets, 67–83

Pessimistic beliefs under rational learning: Quantitative implications for the equity premium puzzle, 85–118

Price stability through price-level targeting or inflation targeting? A tale of two experiments, 373–391

Productivity, indexation and macroeconomic outcomes: The implications of goods market competition and wage bargaining structure, 465–479

Profitability of Korean banks: Test of market structure versus efficient structure, 222–239

Real convergence in Africa in the second-half of the 20th century, 153–167

Strategic delegation and mergers in oligopolistic contests, 119–136

Technology licensing partners, 273–289

The Taylor rule and the appointment cycle of the chairperson of the Federal Reserve, 55–66

Varying monetary policy regimes: A vector autoregressive investigation, 407–427

Why are postwar cycles smoother? Impulses or propagation?, 392–406
